

Features

At present, the functionality of FlexMedical's patient portal includes the basic minimum amount of information required by CMS in order to attest for the available CMS EHR Incentives. This portal will allow the practice to generate user names and password for its patients so that the patients may use an internet connection to securely access the following active information and functionality:

- Medications
- Problems
- Allergies
- Lab Results
- Downloadable CCR of the information listed above
- Patient Messaging

*All providers at each client site are subject to the portal activation & monthly fees

Pricing

- One time set-up fee of \$100 per provider
- \$75 per month per provider

Sign-On Process

- No long term contract is required
- Portal will be activated for each client site within 30 days of the receipt of the completed sign-on document along with the upfront set-up fee and the first month's portal fees
- Portal fees will be billed along with monthly software support going forward
